"Trade where the Trading's Good."

The quality of your ammunition is important—What we sell is guaranteed by the makers—and by ourselves.

We love guns and hunting, and we shoot what we sell—and sell what we shoot.

Our stock of shooting goods is checked up every morning, and during the next two months we expect to promptly and satisfactorily handle the surprisingly large shooting goods trade that is coming to this store.

Remember our prices and ranges.

Single barrel hammer guns from \$6.00 to \$11.00
Repeating shot guns from \$25.00 to \$32.50
Double barrel hammer guns from \$10.00 to \$25.00
Double barrel hammerless guns from \$18.00 to \$80.00

NEW COMPANY TO BUILD FACTORY AT RED DEER

John McLellan Returns From Liverpool as Representative of The Concern.

Parent Company Has \$1,000,000 Capital

From The Capital, Edmonton, Alta., September 24th, 1912.

With a promise for the development of industrial institutions in Red Deer which would make of the little city half way down the line a thriving live of activity, John McLellan, for many years a resident of Edmonton, and for the last few years a representative of the dominion government on the immigration corps in Great Britain, returns from Liverpool as manager of the Red Deer manufacturing company, prepared to commence construction for the company at once.

The plans of the company with which Mr. McLellan is identified are extensive, to say the least, and there are identified with the concern some of the most prominent men of eastern Canada in addition to leading industrial capitalists of Great Britain.

The Red Deer Development company which is the parent company from which will spring a number of minor industrial companies, is an Alberta incorporation with a capital of \$1,000,000. Prominent among the incorporators of the company are W. P. Bull, J. P., Toronto, who visited Alberta only a few weeks ago, taking a look over the possibilities of Red Deer as a factory site. Mr. Bull represents the Canadian end of the company, while Mr. R. Helme of Lancaster, England, who accompanied Mr. Bull on his recent trip through Alberta, represents the English interest.

For its purposes the Red Deer Development Company has acquired 640 acres of land to the east of Red Deer, lying to the south of the Red Deer Ladies College, and adjacent to the Alberta Central railway upon which they propose to erect their plant.

Among the first activities will be the erection of a machine shop, and a power and wagon factory. This enterprise will be conducted under the name of the Red Deer Manufacturing company, also an Alberta incorporation, with a capitalization of \$200,000, and it is to commence operations for this company that Mr. McLellan has returned to Alberta. It is the intention of the company to commence the erection of factory buildings next week, and it is hoped that the buildings will be sufficient to completed before the intensely cold weather comes to prevent their completion this year and their occupancy and use for factory purposes this winter.

Nearly \$36,000 in Taxes Paid In

Monday was the last day of grace to receive the discount on taxes, and the amount received by Secretary-Treasurer Stephenson was eminently satisfactory. On current taxes the sum of \$34,566.57 was received, and taxes in arrears amounting to \$1,432.52 were paid, making a grand total of \$35,999.09, or about ten thousand dollars greater than last year.

No better indication of the prosperity of Red Deer is needed than this one fact alone, and all concerned are well pleased at the result.

Attempts Suicide by Poison

Wm. Kirkham was brought up on remand before Justice Wallace for attempted suicide, yesterday afternoon.

Evidence was given by Drs. Grant, George, Collison and Gray, also Mrs. Kirkham. The evidence pretty well proved that the accused took the medicine while in a drunken condition, thinking it was whiskey. The accused was acquitted and told by the magistrate to keep at home and away from whiskey. The two bottles of medicine, composed chiefly of poisonous drugs, were unobtainable, and Justice Wallace will forward evidence to the Attorney-General on the case.

Red Deer Tennis Club

The Tennis Club ends a most successful season on September 4th. The Club has a small deficit on the season's finances, chiefly owing to unpaid subscriptions, but considering that this is the first year of the Club's existence, and that therefore it has had to meet a large amount that will not be necessary in the future, the committee are satisfied with the outlook.

The prizes for the handicap tournament will be presented at a Club Reunion to be held during the winter.

The men's doubles and singles have yet to be played off. Messrs. Clutterbuck and Chapman, Seymour and Webster and Ross and Wilson remaining in the doubles and Messrs. Seymour and Wilson in the singles.

THE MISSION OF HELP

A large congregation filled St. Luke's Church last Sunday evening, when the Rev. W. Guy Pearce, the eloquent speaker of the "What is Man?" spoke on "What is Man?" This was the opening subject in a course which the Mission is taking night by night at 8 p.m., concluding next Sunday evening.

The subjects "What is Man?" "What is Sin?" "What is Repentance?" "What is the Church of Christ?" "What is Holy Communion?" form the topics which this gifted and experienced speaker will discourse on this week. On Sunday next at the morning service he will speak on "The Rule of Life" at the Mission service on "The Commandments and Life."

The subject of the men's service on Sunday at four o'clock will be "Man's Share in Town Problems." During the week days, at three o'clock, the Mission is giving a course on the 23rd Psalm, concluding on Friday with "What is Christian Baptism?"

No services will be held on Saturday next except Holy Communion at 8 o'clock and a short service of preparation in the evening at 8 o'clock.

To those who are still asking "What is this mission all about?" "What is it?" "What is the purpose of it?" There is but one answer: It will help you. All are welcome.

Leslieville

Rev. E. G. Heaven wishes to gratefully acknowledge the receipt of \$50.00 per Mr. G. W. Bailey, Secretary of the United Union Church, Leslieville, from kind friends in Leslieville, Clearwater and Leslieville, subscribed towards the loss sustained in fire in the Clearwater.

He also wishes to announce that he will be leaving the mission on time in October to return to Huron College, London, Ont.

Evarts

Sept. 21st, 1912.

An interesting wedding was celebrated at the residence of Mr. and Mrs. Gangras on September 11th, the contracting parties being Miss E. Foster, late of Cumberland, and Mr. W. Wolf. The marriage ceremony was impressively performed by the Rev. John Nelson. The bride was given away by Mr. Gangras, looked charming in a beautiful white gown. She was supported by Miss Hanson. The bridegroom was attended by Mr. J. Coghlin as best man. After the ceremony the guests were entertained at a sumptuous supper, which was followed by a dance. Amongst the presents given by the bridegroom was a handsome dress ring to the bride.

Poplar Ridge

O. Bryant is building in North Red Deer and intends moving there this fall.

Rev. Bennett preached at the school house Sunday afternoon. The meetings have been rather broken up on account of the bad weather, but it is hoped that the people will make an extra effort to attend now. Remember, Sunday school at 2 p.m., preaching at 3 o'clock, every Sunday, rain or shine.

Mr. and Mrs. John Parker are receiving congratulations on the birth of a daughter, Sept. 29th.

The roads are certainly in good condition now, and many automobilists are making good use of them.

Standing Grain Contest

To the Editor, Red Deer News.

Dear Sir:—We beg to announce through your paper that we will next year give a prize of One Hundred Dollars in Cash for the best ten acres of oats in the district. We are well satisfied with the standing grain contest held this year and will endeavor to have the Agricultural Society conduct a contest in 1913. If the Society will do us a favor and course give the above mentioned prize through them; if, however, the Society will not conduct the contest in 1913, we will carry it through ourselves. We make the announcement now so that farmers will have time to get the land in shape. The terms of the contest will be those laid down by the Department of Agriculture.

Yours respectfully,
CUNNINGHAM LAND COMPANY
Per J. E. Cunningham.

DEED

In Calgary, on September 17th, Ernest Archibald, infant son of Mr. and Mrs. J. J. Watson, aged 14 months, interred at Red Deer cemetery on the 19th of September, Rev. Brown conducting the service.

MARRIED

At Vancouver, on Friday, Sept. 29, Emma Lettice, daughter of Mr. and Mrs. Geo. Fleming, to Arthur E. Bingham.

ANOTHER WHOLESALE HOUSE COMING

Mr. B. F. Ackerman, of Peterboro, Ont., harness manufacturer and wholesale dealer in harness and horse clothing, has purchased, through the Board of Trade, lots 27, 28, 29 and 30, Block 12, Gaetz Ave. North, on which he will next year build a wholesale distributing warehouse. Mr. Ackerman was here a few weeks ago to look over the ground, and has written that he will purchase the lots for his Alberta branch.

Secretary Davidson is feeling quite happy over Mr. Ackerman's decision, as this may be called the first fruits of his campaign to locate wholesale warehouses at Red Deer. He took up the matter with Mr. Ackerman last year, and has finally brought the deal to a successful conclusion.

Mr. Ackerman's manufacturing establishment is in Peterboro, and he has a big, four-story warehouse at Regina, which was unroofed in the recent cyclone there, which delayed negotiations at Red Deer. His business is of a high standing, and will be the forerunner of other outside wholesalers, with two of which Mr. Davidson is now in negotiation.

A. C. R. Progress

J. Grant McGregor, Chief Engineer of the A.C.R., recently made a trip over the road to the Rocky Mountain House, and he was well pleased with the work done along the line.

The foolish report that the centrepier of the concrete bridge crossing the Red Deer river at Rocky Mountain House, was defective, has no foundation at all. The pier in question, Mr. McGregor says, is acknowledged to be one of the most perfect and well constructed in the entire west. The report arose through some persons noting the contractors putting on the finishing touches to the concrete work, and they jumped to the conclusion there was something wrong with them.

The road is now nearly ready for the street and is fast approaching completion. The work at Burnt Lake is progressing favorably, and the water will all be drained off in a few days. Several hundred feet a day is being constructed on the grade from each side of the lake, and as soon as the water is all drained off, the bottom is dry enough, the grade will be completed, which is only a matter of a very short time.

If it could be preserved, Mr. McGregor thinks the line could be completed this fall and winter. As it is, it is not likely to be laid on the grade until next spring.

"The Havoc" a Decided Success

Paul Gilmore Gives a Good Presentation of This Strong Play

"The Havoc," as presented by Mr. Paul Gilmore and his associate players at the Regina Theatre last evening, was in every way a decided success. The plot, and the way it was worked out, is quite unique, and to follow it out, closest attention is required. In it there is ample opportunity for the interchange of many clever speeches, and these opportunities were taken full advantage of. Unlike the majority of plays, however, those indulged in "The Havoc" are not the kind that bore. Wit, sarcasm and philosophy are cleverly blended and the result is entirely pleasing.

Mr. Gilmore's company is admirably balanced, and take the parts assigned to them with ease. Deserving of special mention was the acting of Miss Hutchinson, whose real ability, and charming personality, completely won her audience. Mr. Gilmore was the wronged husband, and his interpretation of this most difficult role was all that could be desired. He takes his part with a naturalness that is devoid of pose and full of originality, and the applause bestowed on him was won by merit alone.

Of Mr. Devereux as Paul Hossert, villain, it is sufficient to say that the excellence of his work to say that his smooth line of talk and setting made one instinctively antagonistic. Once some one has heard him, and what higher compliment than this could any villain desire? The stage setting was good.

"The Havoc" will be played at the Lyric Theatre, Red Deer, on Friday night, Oct. 4.

OBITUARY

Alexander Ross McKenzie, residing about four miles south of town, passed away on Saturday last, September 28th, aged 62 years. Deceased came to this country a short time ago from Nova Scotia, where he had resided for many years, and settled on a farm near Tuttle. The funeral takes place at Red Deer today (Friday). He leaves a wife, and two children, a son and daughter, to mourn his death.

N. WHITE, Auctioneer

(SUCCESSOR TO F. MOTT)

Several Years' Experience Satisfaction Guaranteed
GAETZ AVENUE NORTH.

Six Months

Credit Auction Sale

TUESDAY, OCTOBER 8th, 1912.

Under instructions from Mrs. Holmes, I will sell by Public Auction at Mr. E. Boute's farm, the N.W. 1/4 Sec. 28-36-23-4, two miles east of North End Store, Pine Lake, and close to the Pine Lake trail, the whole of her live and dead farming stock as follows:

TERMS OF SALE: All sums of \$20 and under, cash; over that amount a credit of six months will be given purchasers furnishing an approved joint bankable note with interest at 8 per cent. A discount of 2 1/2 per cent. for cash on sums over \$20.

SECONDHAND STORE

A large supply of Household Furniture—Dining Room Suite in quarter cut oak, consisting of 8 ft. extension table, six diners upholstered in leather, arm chair and settee.

Our Special Gentlemen's

17 Jewel Watch, fitted in a nice gold filled case at \$15 is guaranteed to give entire satisfaction.

Our \$15.00 Ladies' Watch

In a nice plain or engraved hunting case, is a very good value and will last a lifetime.

Before buying a Watch we would ask you to call and see our selection.

HAROLD J. SNELL

Diamond Merchant & Goldsmith, Issuer of Marriage Licenses
ROSS ST. - RED DEER

to the opportunities hereabouts for you to begin the foundation for a fortune.

Take that money you have lying idle and make a payment on a lot if you have not enough to buy one outright. If you have, then come to us and see about a loan to build a home with. If you don't want it to live in you can rent it to great advantage and we will find a tenant.

Don't neglect this and remember that we will help you out on the deal with a liberal loan at lowest rate.

We make Straight Loans on Town Property.

Michener, Carscallen Co.

RED DEER, ALBERTA

From The Honorary Directors and Council of Dr. Barnardo Homes

The Council of these Homes are sending a deputation with the object of making the work more extensively known throughout the Dominion and in the hope of securing a larger measure of Canadian sympathy and support. The task of representing them upon this important subject has been undertaken by the Rev. W. J. Mayers, the Senior Deputation Secretary of the Institutions, and one of the late Dr. Barnardo's oldest friends. During the twenty-four years of his connection with the work, Mr. Mayers has advanced its claims in various parts of Great Britain, and has twice visited Australia and New Zealand, where he was received with the utmost kindness, his meetings being attended, and his appeals meeting with a most generous and gratifying response. It is in the hope that a visit to Canada may be attended with similar success, that the Council of the Homes have deputed Mr. Mayers to spend the coming autumn and winter months in the land to which he owes his services, and to tell the story of the work wherever an opening offers.

Dr. Barnardo's Homes have up to the present date received, trained and equipped for their future in life about 7,000 children, who, at the time of their admission, were either destitute and homeless. They are supported entirely by the free-will offerings of sympathisers from all parts of the world, of all classes and denominations. The Homes themselves are inter-denominational, and welcome the co-operation and support of all who recognize the claims of child need, and the call of Christ to service and self-sacrifice. In the training of the children committed to their care, it is sought to bring them up in the "nurture and admonition of the Lord," to develop sound minds and healthy bodies, and to then by education and industrial training to become useful, respectable and successful citizens in the communities to which they may afterwards belong. About 9,000 children are now being thus cared for.

In putting forth the special appeal for Canadian support which they are about to make, through the agency of Mr. Mayers, the Council feel that the work of Dr. Barnardo's Homes has a special claim upon the sympathies of the people of the Dominion. Under this well-tried scheme of emigration over 25,000 boys and girls have been sent to Canada during the past thirty years. These have not been the residuum or "surplus stock," but the flower of the flock, the best and most promising of those who have been trained in the Institutions, and who have attained a high standard of mental and physical fitness. Out of the great number who have been placed in the Dominion, ninety-five per cent. have proved thoroughly satisfactory. Under the principles by which the emigration work is conducted the children are not dumped down to be a charge or a burden upon a new country, but are carefully placed in situations of foster homes, and are kept under constant and watchful supervision until they have reached the age of independence. Mr. A. H. Chalmers, for many years superintendent of the work in Canada. Many of the former inmates of the Homes are now occupying high and responsible positions in the Dominion, hundreds are established on farms of their own, and there are few who are not aiding by their industry in the development and upbuilding of the country. It is recognized that the great need of Canada today is population to occupy its vacant lands, and to develop its vast agricultural, mineral and industrial resources. To the supply of that want the Homes have been contributing the best possible material. Canada has received much from Dr. Barnardo's Homes, but it must be admitted has so far given little in return. The Council have therefore to the coming tour of Mr. Mayers to do something towards adjusting this discrepancy. The citizens of the Dominion have shown their willingness to co-operate with the Mother Country in the maintenance of our sea power. May we not hope that they will be at least as generous in taking their share in the higher and nobler enterprise of rescuing our boys and girls from want and destitution, and training and equipping them to become useful, worthy citizens of the Empire.

It is expected that Mr. Mayers will leave England at the latter end of

September, and upon his campaign in Canada early in October. He will be bringing with him a picked company of musical boys (with their conductor, Mr. H. Aaron), who will render an attractive and varied programme at his public meetings. It is hoped that in the course of his tour, Mr. Mayers will be able to visit most of the principal cities and towns of the Dominion and in special places where suitable hall-rooms can be arranged, placed at his disposal. In certain centres Mr. Mayers may address "rallies" of the old boys and girls from the Homes. A member of the Canadian staff, Mr. John Kidney, will act as advance agent to Mr. Mayers, and will make all preliminary arrangements for the meetings and travelling expenses.

It is hoped that Mr. Mayers and his little company will have a cordial welcome from all friends and sympathisers of the work in Canada, whom it is trusted will rally to his help in attending his meetings and endeavoring to arouse the interest of others. Especially we beg for the support of all Ministers of the Gospel, and gratefully anticipate the opening of churches for services and meetings during the tour.

To the members and leaders of "The Press" we specially look for influence and support. This was an earnest request of a deputation in Australia, and will be gratefully remembered. Mr. Mayers, who is as freely accorded in Canada. Our earnest hope is that Mr. Mayers' journey will bring wisdom and much needed help to our funds, and that it will serve to widen and deepen the interest in that great work of education and civilization which Dr. Barnardo devoted his life and which those who have succeeded him are seeking to extend and carry forward. Any contributions from friends in Canada who are willing to afford their help in showing hospitality or who are disposed to make suggestions upon any matters connected with the tour, will be gratefully welcomed. Rev. W. J. Mayers may be addressed at the Chief Office of the Homes, 54-52, Peter Street, Toronto.

Stomach of Ape Placed in A Man

Remarkable Operation Performed by a French Surgeon Great Success.

Paris, Sept. 24.—A man's stomach has been removed and replaced with the stomach of an anthropoid ape which, of course, an ape very close to a man in the rising scale of development.

So joyous was the recipient of the new stomach that at the first opportunity he became intoxicated. Naturally the ape had not tasted liquor and the stomach he gave was so healthy that it did not suffer by being drenched in alcohol. The remarkable operation and restoration of the part exercised, the first of its kind, was performed by Dr. Rouliès, a famous surgeon in the hospital at Angoulême, southwest of Bordeaux. The news of it has excited intense interest here, not only among surgeons, but among those whose stomachs, and consequently their health, have been ruined by disease or excessive eating and drinking. Indeed, at the moment many an old non-vital is ready to exchange stomachs with a healthy gorilla or even a chimpanzee. The patient of Dr. Rouliès was a farmer, 27 years of age, whose stomach had been ruined by disease, and who was suffering from indigestion, and consequently from the great troubles of the operation proceeded, exercised the usual stomach, and in its place served the ape's stomach. After twenty-five days of treatment the cure was complete; the young farmer left the hospital, and as if to test his new stomach, went on a spree. Dr. Rouliès speaks with certainty of the benefits his new operation will confer on mankind. Of the ape he has nothing to say. He will describe the operation in a communication he will present to a French academy of medicine.

Moose Jaw To Have Million Dollar Elevator

Moose Jaw, Sept. 22.—A proposition made by a number of Winnipeg grain men to build a 200,000 bushel grain handling house and a 1,000,000 bushel elevator in Moose Jaw was ratified Monday night by the city council, site and extensive trackage being turned over for a nominal sum. The Winnipeg Grain Elevator Co. will operate under the name of the Great West Grain Company, and guarantee to extend the elevator capacity to 5,000,000 bushels by the year 1915. The company will start building operations next spring, and will have the concrete grain storage tanks ready for the 1915 season. The trackage they secured was, they said, to permit of their handling 50 cars of grain at one time.

SPEND \$1,000,000 FIRST YEAR. The expenditure for the first year is to be approximately \$1,000,000, and, apart from their agreement, they state that several millions more will be spent during the following two years. They expect to have more than the 5,000,000 capacity mentioned in the agreement before 1915, and will extend their elevator capacity as the business continues as building operations will permit. The company is backed by Winnipeg and Duluth capitalists, who are capable of meeting the financial demands. The title to the land, practically two blocks in extent, will be handed over to them at the end of 1913, when the cost of one million has been reached, and the handling house is operation.

ADVOCATES CHANGES CANADA'S SCHOOLS

Kingston Professor Would Abolish Frills and Teach Essentials, Especially Writing and Spelling

From all over the Dominion apparently complaints arise from time to time as to the wretched results of the various systems of education in vogue. Says Prof. A. Knight, of Queen's University, Kingston, Business men are lost in their education of systems which turn out so-called educated young men, who when taken into offices are found unable to write decently, to spell correctly, and, consequently, to compose an ordinary letter. The same complaint is heard from the authorities of many colleges throughout Canada: that students come to them without a right grasp of the very foundation of knowledge, the ability to write good English.

The impression is growing, at all events amongst the public, and in some cases among the educationalists themselves, that the cause of it is a too full curriculum. Before a proper ground has been laid in reading, writing, and arithmetic, the three R's which used to be considered the true basis of education, the student is crowded in, with the result which we see.

The breaking of country correspondents who write for city newspapers, Prof. Knight says: "The writing of most of them is execrable; and, moreover, untidy, slipshod, and what is usually regarded as uneducated. In the second place, the contents of the letters show no signs of education; that is of an education which would lead the writers to choose subjects beyond trivial ones. It may be, of course, that gossip is what people want to read in these letters; but it is of no great interest to learn that 'house cleaning is the order of the day,' or that someone has finished putting his buggy, which makes a fine improvement on it?"

Then the mistakes in grammar are shocking, continues the Professor. Over and over again such items appear as "Mr. and Mrs. was in town Saturday."

"Here, then, are positive proofs of the failure of our educational systems in the first absolute essentials. That they can be found among others than the country correspondents, no one can deny. Surely there must be something hideously wrong with educational systems that force people to be able to write their own language properly, and to have to acknowledge it in this and that way they do."

Would it not be far better that our children should be taught to speak and write in plain English, even if half or more of the extra subjects be cut out?"

HUDSON BAY TIMBER An Experienced Cruiser Describes Split Lake Conditions

Interesting observations with regard to the timber of the Hudson Bay region, the southern part of the old district of Keewatin, are found in the report of the District Forester, Mr. J. T. G. Whyte, an experienced timber cruiser and fire ranger, who has since been drowned while in the charge of his duty reported on the conditions of the forest around Split Lake, on an area of about 2,000 square miles. This whole territory was originally covered with forest. The Split Lake still bears Spruce, Tamarack, and Jack Pine large enough for railway ties, poles and lumber. All the rest of the country has been burned over at least once within the past forty or fifty years, and the timber, which dates from the last fire, rarely exceeds three or four inches in diameter. The shores of Split Lake have been burned over on an average every seven years. Fortunately in this district the soil is usually deep, and can always support another crop of trees. The presence of merchantable forest in protected situations proves that the young forest now started will become sufficiently valuable to support sawmill and pulp industries and supply a large population. If it can be protected from fire, very little of the land traversed by Mr. Whyte is suitable for agriculture. Mr. J. T. Blackford, fire ranger at Oxford House, reported similar conditions on about 5,000 square miles of territory in that region.

FISH IN THE PACIFIC

New Field of Industry to be Opened Up

The herring fisheries alone of Yarmouth and Lowestoft brought in last year \$2,000,000 to the owners and fishermen and gave employment ashore to thousands of men and women. As a result of only 10 weeks' work one drifter or fishing boat has been known to earn over \$11,000. Yarmouth employs 150 steamers in the work and Lowestoft 250. A steam drifter usually carries 10 men all working on the hauling system. In one day 1,205,410,800 herrings were caught at the two ports mentioned which give an idea of the enormous quantity handled by the fleet as well as by the railways on shore. As compared with this the fisheries of British Columbia are said to be the best in the world to-day and wait only for the completion of the canal from Prince Rupert to reach their full development. Halibut in Hecate Straits range from 50 to 300 pounds each and there are halibut banks in all directions. The spring or king salmon of Langara Island are caught by the Indians in incredible numbers. The "oolahcan" glut the rivers of the province for six weeks every year while all the small streams are crowded with coho, hump-back red, and gold salmon.

IT HAS BEEN PROVED.

That Machele, Nature's Scalp Tonic, has a record for growing hair 95 cases out of 100. It is the only remedy ever discovered that is similar to the natural hair foods or liquids of the scalp. Removes dandruff. Prevents falling hair. Each package contains a packet of Machele Dry Shampoo Powder. Price for complete hair treatment, \$1.00. Sold and guaranteed by G. B. Parke.

MAKING BOGUS BILLS

Canadians Are Well Protected But Counterfeiters Are Often Clever

There are many obstacles in the way of the counterfeiters of Canadian bank notes or government bills, according to the statement of a former employee of the American Bank Note Co., the firm which manufactures Canada's paper money. First of all the counterfeiters have much trouble in securing paper which will prove a good substitute for the paper used by the government. His next greatest obstacle, and the greatest of all, is to secure ink similar to that used by the government. The major used by the government is made at Dalton, Mass., by a secret process. It contains the familiar silk thread. Several counterfeiters had baffled, to a certain extent, the authorities by using a high grade of onion paper. Two sheets were used. The silk threads were placed between and the sheets glued together. As to the ink, the government uses a very expensive kind and when anyone other than a government employee or some bank note company makes a purchase it is very easy for the detective to trace it. It is easier to trace the purchase of ink than paper, as many corporations use the high grade onion paper for letter heads, etc.

In the case of the counterfeit bills which have been circulated in large numbers, apparently from families, a good bill was photographed and a copy made. A plate was made for each side of the bill. The process gives the impression that it has been used on the bank, as the edges are edges, which showed that the plates were none too good and not made by the expert, the edges leading to detection at once.

The best bogus bills are made by the lithographic steel plate system. However, a man may be expert in the engraving business, and still be unable to make a duplicate of a bank note, which is made by the geometrical lathe, which is the machine used in making bank bill plates. The expert may make a strong resemblance of the original, but there will be a difference and one used to the business could detect it.

SEA-GOING CAT'S DEATH

Mascot of Tunisian Deliberately Committed Suicide

Evidently tired of sea life and not caring to take out a precarious existence ashore, "Prince," a plump, sleek coated black cat, one of the mascots of the Allan liner Tunisian, deliberately ended its ninth life by committing suicide at Montreal as the ship was leaving the wharf en route to Liverpool. The big ship had got away from the end of the wharf several feet when Prince appeared on the main deck. He looked at the wharf, turned round and scanned the deck, then quickly walked around again and with a feline bow leaped towards the dock and fell with a splash into the surging water. Some longshoremen who saw the cat fall into the water tried to save it, but Prince avoided their attempts and in a few minutes was sucked under by the strong current caused by the moving ship.

LIVED 185 YEARS

Oldest Man in the World Dead in Mexican Town

An official investigation into the life of Don Juan Acuña, who lived recently at Tuxpan, Mexico, was 185 years old, has been made, and it is announced that he was only established by church records that he was born in 1727.

During a period of more than 75 years before his death he was known to the people of the town where he lived and the fact was fully established by church records that he was born in 1727. He was active in getting about the streets until a few days before his death.

THE POLICE CENSUS.

Owing to the rapid growth of Red Deer during the past year, it has been decided to take a police census of the town and, with that object in view, Town Clerk A. T. Stephenson was appointed census enumerator at the last Council meeting, Thursday evening, and he will take charge of this important work on October 10th.

The census will be taken by the town police force, and will commence on Wednesday next, Oct. 9th, and must be completed in one week's time.

It is very important that every citizen should see that his name is on the list and that all the help possible is given the police in the discharge of their duty.

We confidently expect the population of Red Deer to be well towards three thousand five hundred souls.

OUR PUBLICITY AGENT.

J. R. Davidson, publicity commissioner of the Board of Trade, has sent in his resignation, to take effect Oct. 15th.

This step was taken owing to the fact that the Board of Trade could not see its way clear to continue the present salary paid the commissioner.

Some of the members thought results obtained did not warrant the salary, others thought we could get a cheaper man, and others again had diverse opinions of their own, but all agreeing that something ought to be done to lessen expenses.

In speaking to a gentleman who is on the road a good deal, and knows every town intimately between Toronto and Vancouver, he most emphatically said the town was making a mistake.

"Do you know," he said, "that Red Deer is the most talked of town between Toronto and the Coast today? Do you know that your town is on the eve of a great forward movement, and nothing can check this movement except the action of your citizens?"

"Two years ago," he went on, "not one in ten you met on the train and in the cities ever heard of Red Deer. Today nine out of ten, nineteen out of twenty, have heard of the town and are enthusiastic with regard to its future. What has made this change? I attribute it to the good work done by your publicity man. I don't know his qualifications as a speaker or a pusher in town, but I do know he is a most forceful, convincing writer, and you will have a hard job to fill his place. He has done a woman's service for Red Deer, and to his efforts I attribute in a large measure, this great advertising of your town."

The news agrees with this outside opinion, as it is utterly impossible to estimate the good work done by our publicity commissioner. We are of the opinion it has been far-reaching and is only now bearing fruit.

Mr. Davidson is not one of the blarney, loud-mouthed, too-your-own-kind kind of commissioners. He is, perhaps, a little too shy and reserved, but his work has been well thought out, consistent and methodical, and we do not believe he can be replaced for the money.

The news man has not been a very active member of the Board of Trade, nor would not allow us to hear but we have willingly paid our share of the upkeep of expenses and have

been well pleased at the excellent work done by the Board and the Commissioners during the past two years, and we further believe it will be a calamity to take our hand from the plow at this time.

If we have to make a change, let it be for the better.

We believe every progressive citizen of Red Deer realizes today, as never before, that we have to go ahead. There is no turning back. Destiny has marked us out as a large city and we must go forward.

Take Calgary today, growing at the rate of a thousand a month. Yet the papers, the Board of Trade and publicity people are working harder than they ever worked to promote the interests of their city, and so it must be with Red Deer. Let every citizen be a booster and the time is not far distant when he will be able to look back on the work he has helped along and say with pride "It was partly due to my efforts."

CHIEF BIG TALK.

At Sturgeon Falls Sir Wilfrid Laurier declared that he would "fall with his face toward the enemies of Canadian nationhood, hyperis, prejudice and injustice." This was said in the hearing of Hon. Rodolphe Lemieux, Hon. Charles Murphy, and some of the others. Whether or not Sir Wilfrid included among the "enemies of Canadian nationhood," etc., politicians who do not hesitate to sow the seeds of discontent with frequent repetitions of such expressions as "the trusts," "the vested interests," the "millionaire club of Toronto," the "unholy alliance," etc., does not appear. Attempts to set the west against the east and the country against the city indicate clearly enough the whereabouts of the "enemies of Canadian nationhood."

Sir Wilfrid, I will be remembered, in days of old, made a similar remark when he was in the west. "Had I been on the banks of the Saskatchewan I would have taken up arms against the government." That reminds us that when he was visiting the west one of the old Indian Chiefs called him Chief Big Talk, which we consider a very appropriate name in the present instance.

Sir Wilfrid Laurier has been telling the people of Quebec and Ontario that he has consecrated his life to the unity of the two races in Canada. He has been very ready with professions of a desire for harmony. He would ask the people of Ontario "to look at me" and "shall tell them that there is no better Canadian than I." Talk of this kind was abundant at St. Clet, in Soulanges county, P.Q. But on the same platform with the Liberal leader was J. A. C. Ethier, member for Two Mountains. The Liberal "Witness" of Montreal reports this as follows: "Mr. J. A. C. Ethier, M.P., (Two Mountains) made an attack on 'Sam Hughes,' 'Dr. Sproule,' 'Bob Rogers,' 'Mr. Borden' and the jinxes of Toronto. Col. Hughes and Dr. Sproule, he said, were Orange leaders, and when Mr. Borden was defeated in Halifax he was found a traitor in Carleton County, one of the strongest Orange strongholds in the Dominion. He also said that priests, nuns, and a papal delegate were insulted by Col. Hughes, Dr. Sproule, Robert Rogers, and Mr. Campbell, the attorney-general of Manitoba." This is, of course, the briefest summary of the speech of Mr. Ethier, but it is enough. It shows that the old game is being played. Ethier spoke from the same platform as his chief, in a riding represented by Laurier at Ottawa. He is a staunch follower of Laurier. It is not on record that his chief rebuffed him at St. Clet.

TRANS-ATLANTIC MESSAGES AT LOWER RATE

It has been left to the Borden cabinet to take the first step in a scheme of reduced cable rates between England and Canada. Hon. L. P. Pelletier, Postmaster General, returned with Premier Borden from England, and, lying in his pocket, a nice present for Canadians in the form of a substantial all round decrease in rates for Canadians on cablegrams between Canada and the Mother Country. He secured the reduction after a hard struggle in which he was aided by Postmaster General Samuel de England, and was able to accomplish in a few weeks what the Postmasters General of the Laurier cabinet could not during their fifteen years of power.

The Hon. Mr. Pelletier secured three important concessions, all rebounding to the benefit of the Canadian people—reductions on messages subject to delivery of ordinary wires, on ordinary press telegrams and night press telegrams.

For telegrams in plain language the present deferred rate of twelve cents per word will be reduced to nine cents, and also on messages, instead of being subject to a delay of twenty-four hours, will be transmissible without any more delay than what is necessary to give priority to the ordinary rate telegram of twenty-four cents a word.

It is thus evident that for a little more than a dollar a twelve word message can pass between England and Canada in a few hours.

The private citizen in an emergency can communicate cheaply with relatives in Great Britain, while the commercial man can conduct his business in a much easier manner. The ties between the Motherland and her Dominion are drawn more closely together by a French-Canadian minister, who was denounced by his Liberal opponents as a Nationalist and enemy to Canadian development.

Another rate of night lettergrams will be inaugurated. For the sum of twenty-two cents a message of twelve words can be flashed over the Atlantic to Great Britain, and for each additional word five cents will be charged. These lettergrams will be subject to the prior delivery of ordinary traffic to be delivered on the morning of the day following that on which they are transmitted.

There is at present in existence a rate of one dollar forty-four cents for thirty words and twenty-four cents for each additional group of five words for weekend cable letters handed in up to Saturday for delivery on the following Tuesday.

This arrangement is replaced by a much more favorable one. The new rate will be one dollar and eight cents for twenty-four words and five cents for every additional word, but the time of delivery is Monday in the case of Tuesday messages.

While these reductions have been secured for the people of Canada at large, the Hon. Mr. Pelletier also obtained the inauguration of new rates for press messages between Great Britain and Canada, and which will result in a large dissemination of Canadian news in England and vice versa.

The whole scheme, though not so vast as Mr. Pelletier anticipates it will be, yet, goes into force at once. And it is safe to say that few men could have accomplished so much in such a short time and against such odds. Mr. Pelletier in fighting for reduced cable rates was advancing many steps further the scheme of a vast empire cable system controlled within the empire. He makes no secret of his ambition to make the transmission of messages across the Atlantic as cheap as between any two cities in a Canadian province.

Mr. Pelletier's success was in striking contrast to the failure of the Hon. Rodolphe Lemieux, Postmaster General in the Laurier cabinet, who prated so loudly and so long of his endeavors to secure reduced cable rates.

A new minister gifted with administrative and business ability at a rare degree took the reins of office. Mr. Pelletier effected changes which were a revelation to the public. He hampered cable relations between Canada and Great Britain.

THE BANQUET TO MR. BORDEN

The Toronto Mail says: The Right Hon. R. B. Borden has the distinction of having been the guest of honor at the largest banquet ever given to a public man in this country. No head of a Canadian government, no leader of a Canadian party, was ever before banqueted as was the Prime Minister by the Board of Trade, Monday, September 23. Mr. Borden has had even and exceptional experience of the public favor, both at home and abroad. In the Mother Country he was feted and made much of as a statesman from the overseas dominions ever he was here. He was welcomed home by demonstrations that must have deeply gratified the interior, assisted by A. G. MacKay, late leader of the Liberal opposition in the province of Ontario.

people. The tribute rendered to him last night was notable, not merely as surpassing all others of a like kind in size and magnificence, but also as an expression of non-partisan approval and confidence. That fact was peculiarly grateful to him, and it is certain to have an influence that will make itself felt in his conduct of public affairs. We are optimistic enough to believe that the political business of this country can be generally so carried on that whatever party is in office, as to deserve the approbation of such influential, multi-spirited and patriotic bodies of citizens as the Toronto Board of Trade.

The Toronto News, in its remarks regarding the banquet, says:

The Borden banquet was remarkable for the good good uniformly displayed by the speakers. All refrained from party politics, and all united in making the dinner a truly national and imperial event. All were in mind that they were guests of the Toronto Board of Trade, a non-political organization composed of both Liberals and Conservatives. Mr. Borden was present as the Prime Minister of the nation and he spoke for all Canadians. In an unparalleled manner the spirit of Canadian and Imperial unity charged the atmosphere to the exclusion of narrow sectional views. In this respect the demonstration of the night was a hopeful indication that in Canada as Great Britain, Government supporters and Oppositionists may stand together when questions of defence and the national and Imperial welfare are at stake.

GRAND TRUNK RAILWAY NOTES
The Grand Trunk Railway has ordered 25 super heater freight locomotives, with 27,529 inch cylinders, driving wheel 61 inches in diameter, and a total weight of 276,000 pounds in working order. From the American Locomotive Co.

Soundings have been completed for the big Grand Trunk Pacific bridge over the Fraser River, near Fort George, and the sounding machinery has been shipped down the river. It is understood that this structure, which will require a year to build, is to accommodate wagon, street car, and pedestrian traffic as well as trains.

A conference has recently been held between acting Secretary Curtis of the Washington Treasury Department and representatives of the Grand Trunk, Central Vermont and other roads with a view to working out a uniform plan for putting cars containing imported merchandise on separate tracks at the station of every custom town so as to keep them more clearly in customs control.

The customs service handled through the Canadian frontier of entry at Vancouver, Me. St. Albans, Newport and Alburgh, Vt. and Buffalo was also discussed.

Reciprocity Clause In Address to Duke Was Merely Liberal Trick.

Mayor of Edmonton Explains How Politics Were Permitted to Creep Into Address of Welcome Read to The Governor-General.

Edmonton, Alta., Sept. 25.—An explanation of the reference to reciprocity read into the address presented by Edmonton to the Duke of Connaught when here, the mayor, Geo. S. Armstrong, over his own signature, addresses a letter to the Edmonton Journal. After referring to the arduous and widespread discussion given the mayor, the mayor of Edmonton writes:

"When it was ascertained that it would be necessary to present a city address to His Royal Highness, I cast about for some scholarly person to prepare a suitable address. With one accord such scholarly persons as I approached began to make excuses and finally the choice fell upon certain gentlemen who undoubtedly have the necessary scholarly qualifications, whatever other qualities they may lack."

"The address was prepared and handed to the city clerk, just in time to forward it through the proper channels to the Government house, Ottawa. I glared at it, hastily over it and noticed a reference to 'wider markets,' and in view of the fact that I had just returned from the Panama conference at Calgary, assumed that any reference to an opening of the Panama canal was intended as a reference to the extension of markets referred to the completion of the trans-continental lines of railway, the establishment of corresponding steamship lines, and a general increase in trade with the far east and otherwise by means of the Panama canal."

"If it had been possible to read into the address an endorsement of the policy of the late government, it is a compliment to the skill of the gentleman who undertook to prepare the address. If such a reading was intended by the gentlemen who prepared the address, no explanation is further necessary than to state that the address was prepared by William Rae, solicitor of Edmonton, a leading supporter of the late minister of the interior, assisted by A. G. MacKay, late leader of the Liberal opposition in the province of Ontario."

Western Tours of Ministers Blocked By Early Session.

Will Be Momentous With Naval Policy, Tariff Commission, Bank Act and Highways Bills.

Ottawa, Ont., Sept. 24.—The announcement that Parliament will be summoned in November has necessitated a complete change in the plans of the cabinet ministers. A half dozen members had expected to make trips through the west to the coast, but will now in all probability have to abandon the idea.

Hon. W. T. White was looking forward to a trip through the prairie provinces and British Columbia. As Finance minister his presence will be necessary in Ottawa to prepare for the session. Hon. L. P. Pelletier said to a Telegram correspondent: "I was eagerly looking forward to a visit in the west."

Hon. J. D. Hazen was also intending to visit British Columbia, and will probably have to postpone his visit.

SESSION MOMENTOUS ONE.
The coming session promises to be the most momentous and most interesting for years. The bringing down of the naval policy will mark another epoch in all probability, and it will precipitate a big mistake.

However, it is not the only big question. The bank act is already prepared, and Mr. White will introduce it as soon as the house opens.

Formerly Borden estimated at Monday that the bill would be introduced by the senate last session, will be reintroduced, which means another clash in all probability. The two parties, if the Senate persists in its attitude it would not be surprising if a bill for its reform was brought down.

Although the house has been hurriedly summoned, the government will not be caught napping, and will have its business ready. Orders were sent some time ago to prepare the estimates, and the departmental reports were never as late as at the present time, thanks to the energy of Hon. Dr. Ritchie.

No Serious Difficulty In The Movement of Grain Says Sir Thomas

Montreal, Sept. 24.—Sir Thomas Shaughnessy returned from his annual inspection trip to the west to day.

"Everybody in the west appears satisfied," said the C.P.R. president, "and there is no reason why they should not be, for the farmers of the west are the richest agricultural people in the world. The grain crop will be a bountiful one, but the wet weather is retarding the harvest and delaying the movement of the crop, and this will mean a very short shipping season. We made ample preparation for the harvest before it was ready, and under the conditions we could only do the best we can."

"I do not anticipate the difficulties some of our friends are predicting regarding the movement of the grain from the west. Of course there will be a tremendous rush—but trust we will always have that—but with a reasonable degree of patience everything will work out all right in the end."

Asked about the suggestion of "Grain Growers' Guide" that rates via the South should be secured, Sir Thomas replied:

"We have heard so many fears expressed in the past that there must be an extraordinary condition in the grain trade that we have become rather accustomed to it, and realize that many people are given to exaggeration. There will be difficulty, of course, but there are always difficulties in connection with the handling of so much grain during the short season before the close of lake navigation, but I do not anticipate there will be anything of a serious nature."

Emperor Bill Called Down

Norwegian Pilot Says He Won't Take Orders From Him and Refuses To Alter Speed.

Paris, Sept. 24.—An amusing anecdote concerning the Kaiser, said to have been told by a member of the German Yacht club, is published in Excelsior.

While the Kaiser was on his way to the impudently yacht was entering a Norwegian port, the Kaiser, impatient at the slowness of the vessel's speed, himself rang the bell and ordered "forward speed." To the Kaiser's amazement the Norwegian pilot refused to obey the order and refused to alter speed.

The Kaiser looked at the man who dared to speak thus in his presence, and to the pilot said, "Go and put yourself under arrest."

"I shall not leave this place," replied the old man firmly. "The ship is under my command, and I am a doctor from Norway, not even an emperor."

The officers looked on in silence, for they knew that the pilot had the Kaiser's word in his favor. Great was their surprise, however, when they saw the Kaiser quit the bridge, leaving the pilot alone to command the vessel. The Kaiser, who had recovered his good humor, decorated the old sailor and named him his "official pilot in Norwegian waters."

More Seats in Senate for Alberta and West

After each storm the report by the mayor or other authority has been "no damage." No hail is found within the protected area, and hail stones which may have been formed at some distance beyond the barrier melt at once when driven to the protected area by the wind and do not the slightest damage. The inventors have given the name of "Electrical Niagara" to this apparatus, and as Niagara Paragrelle it has become widely known on the European continent. A permanent commission has been established at Paris for promoting and examining this undertaking. Prof. Niolle of the Paris Scientific Academy has published a favorable report on the working of the system in the valley of the Vienne, where the stations mentioned are located.

The apparatus is very much like a lightning conductor and consists of a terminal to tap the clouds of electricity, usually made of pure copper, but any good conductor will do. It is usually made in an ornamental form, such as an altar, and has a removable "collar" to get round the weathercock or the cross, etc., of a church tower, factory chimney, or other high projecting object. As a rule it is at least 35 feet above the highest trees in the neighborhood. The conductor which passes the electric fluid off to the earth is made of thick copper plates enclosed in a lead casing to prevent oxidation and is generally properly protected from the weather. Sharp curves and sudden turns, bends, etc., must be avoided as much as possible. To the lowest end of this conductor is fixed the diffuser, also of copper, placed in a pond or well, running stream, or, best of all, in an underground water course.

The cost of erection of these hail preventors in France is about 20 cents per acre in the protection of a district.

By filling the eight existing vacancies the government will have a representation of thirty-eight, and will reduce the Liberal majority in the upper house to twenty-eight. It is probable that this majority will be further increased within the two years by the arrangement of the senate representation from the west. The government now has authority to name two more senators from Manitoba and will probably bring in a bill this session increasing the representation of Saskatchewan, Alberta and British Columbia.

Since taking office the Borden government has appointed five senators. The Liberal leader in the senate will be selected by the Liberals. It will probably be Senator Dandurand.

The Paragrelle or Hail Preventor

(From Dry-Farming for September)

The Paragrelle, or Hail Preventor, an invention of Gen. Delagrèrie and Count de Beauchamp, two French land owners, is attracting the attention of the whole scientific world just now. The municipalities of St.

Julien l'Arre, Chausigny Palmyre-See, and St. Sauvin, have erected stations and with good results, i.e., no serious damage has been done to crops. These stations are about six miles apart, and for two years they have formed a very effective barrier.

After each storm the report by the mayor or other authority has been "no damage." No hail is found within the protected area, and hail stones which may have been formed at some distance beyond the barrier melt at once when driven to the protected area by the wind and do not the slightest damage. The inventors have given the name of "Electrical Niagara" to this apparatus, and as Niagara Paragrelle it has become widely known on the European continent. A permanent commission has been established at Paris for promoting and examining this undertaking. Prof. Niolle of the Paris Scientific Academy has published a favorable report on the working of the system in the valley of the Vienne, where the stations mentioned are located.

TIMELY WARNING!

During the past few months we have received numerous letters from different manufacturers advising us that owing to the increased cost of labor and raw material used in the manufacture of furniture, they have found it necessary to advance their prices.

The Price of Furniture Has Advanced

during the past three months from 10 to 25 per cent, and there is talk of even another 5 per cent, advance in the very near future.

Do you realize what this means to you? If you are thinking of buying Furniture or other House Furnishings, you will take this tip and buy now before we are forced to raise our prices. There is one thing certain, that is, furniture will never again be cheaper than it now is, and it is sure to cost more in a short time.

WE CAN SAVE YOU MONEY if you will only consult us about your wants.

The Best Furniture Co. Ltd. EVERYTHING FOR THE HOME 51 1st STREET, SOUTH, RED DEER

Young Man It's Time To Buy That Overcoat!

Have you noticed those new style, fancy made Overcoats some of the young men are wearing. They came from McLean's, and we have one here for you that will fit and please you and save you money.

Whether you want your coat now or later, come in and let us show you what a good overcoat should be made of; should cost; and should look like.

OVERCOAT SPECIAL

The man in the street feels the bitter wind sweep round the corner, and watches it tearing the smoke from the big stack; and he tries to make himself believe that it isn't time to buy his overcoat YET.

He has the money in his pocket, but he likes to tease old Boreas, God of the north wind—which must make the old storm-king shake with Olympic laughter.

Either one or all of three things happen to the man; first, he gets a cold; second, he gets the name of being a poor spender; and third, he gets an ordinary looking overcoat in the long run, because all the good stocks have been picked over.

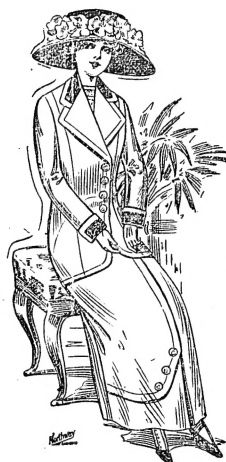

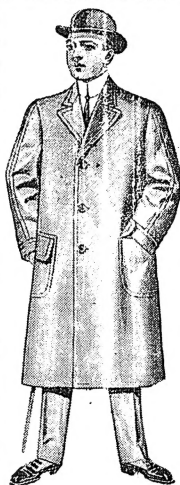

GENTLEMEN READ THIS

We have just received a large shipment of Men's Overcoats direct from the factory—the very newest and best made.

These were bought by our Mr. R. C. McLean, who is still in the east buying.

We are offering for Saturday only—25 coats, regular \$15 and \$18, for \$12.50. It will pay you to see our line before buying elsewhere.

We have over four hundred coats to select from.

Red Deer's Finest Collection Of WOMEN'S READY-TO-WEAR APPAREL

THE TOWN COUNCIL

The regular meeting of the Town Council was held on Thursday evening last, with H. W. Knapik, Mayor, E. R. Belliver in the chair, and Councillors Galbraith, Bostford, Byers and Carswell in attendance.

CORRESPONDENCE.
J. E. Welton drew the attention of the Council to a notice of a survey in town. As Mr. Welton is one of the tall men of the town, he found it hard to get under the awnings, as well as many others. The law says they must be seven feet high to the lowest edge. Dealt with by the Commissioners.

From the Secretary of the Canadian Highway Association, drawing attention to the annual meeting in Winnipeg, Oct. 9th and 10th, and enclosing programme. Filed.

Brayn Bros., nurserymen, wrote the Council re stock. Filed.

The Secretary of Lodge wrote thanking Red Deer delegates to the Municipal Convention for their valuable assistance to the small towns of the province. Filed.

Seymour & Davis, Town Engineers, wrote that they had made a survey of land purchased by the Town from H. H. Gaetz, and have handed the plan to the Surveyors.

The building inspector reported that complaints had been made to him that the Western General building on Gaetz Avenue, used as a telephone exchange, is in a dangerous condition, and recommended that an architect be engaged to examine the building and the Pine Lake trail, the whole of her live and dead farming stock as follows:

CATTLE: 7 good milk cows; 2 cows with calf at foot; 1 three-year-old steer; 6 two-year-old steers; 4 yearlings; 4 spring calves.

HORSES: One 3-year-old roan gelding, 1400 lbs., broken to work; one bay gelding, weight 900 lbs.

IMPLEMENT: Wagon and box; set of bolt sheaves; Massey-Harris mower and rake; Capital separator, nearly new; 2 saddles; good set of work harness; row boat; double barrel shot gun; Snider rifle; camp bed; croquet set; croquet ball; bench saw; axes, forks, and a large scythe; row chains; snovels; brand quantity of small tools.

Lunch at 11. Sale at noon.

TUESDAY, OCTOBER 9th, 1912.

Terms of Sale: All sums of \$20 and under, cash; over that amount a credit of six months will be given to purchasers furnishing an approved joint bankable note with interest at 8 per cent. A discount of 25 per cent. will be given on sums over \$20.

W. WHITE, Auctioneer - Red Deer.

The Mayor thanked the Council for their report on the building.

The Commissioners were afraid the building would not be ready for use on that date as the radiator for the heating system might not be here in time as they were lost on the road between here and Toronto.

The Mayor thanked the Council for their report on the building.

pleasantly shaded by hedges and trees, and the water was so pure and clear that it was like a mirror. Moorwater, where the strange highland cattle grazing declined to acknowledge coming by so much as a ripple in the eye of the water, and their placid contentment absolutely left their nerve aspert.

It is here, little more than a mile from the island, that the romance of the Troasachs comes to meet us. Samson's putting stone, a house on the hill, and a well on the shore, are the only remains of the old story, the subject of a romance which has been told for centuries.

in themselves that question daily.

And if these same doubting disciples could only read the thousands of letters from the people who once suffered as badly as they do now, but who have been quickly and permanently cured by the use of Miconia, the mighty dyspepsia remedy that cures by removing the cause, they would go to Gert's Nett Drug & Book Store this very day and get a large box of Miconia tablets, and start themselves on the right road to health at once.

The price of a box of tablets is only 50 cents. Write to Gert's Nett Drug & Book Co. guarantee them to cure indigestion, or money back.

Thin or lean or scrawny people will find in Miconia a maker of flesh and blood. It is the only remedy known to man to get more nutritious matter from the food, which quickly enriches the blood.

GAETZ AVENUE, NORTH - RED DEER

A Harmless Way To Darken The Hair

A little sage and sulphur make the gray hair vanish. Who does not know the value of sage and sulphur for keeping the hair soft, dark and glossy, also in good condition. Sulphur is a natural element of hair, and a deficiency of it is held by many specialists to be responsible for loss of color and vitality.

Unquestionably there is no better remedy for premature grayness than

Wyeth's Sage and Sulphur Remedy
It can be obtained from us at 50c a bottle

You will find we have your favorite Hair Preparation in stock, as it is our policy to quickly procure what the public demand.

GAETZ AVE., RED DEER

LOCAL AND GENERAL

Miss Edmunds is visiting relatives in Winnipeg.

Mr. and Mrs. W. P. London are on a visit to the coast.

D. H. Trautman has a nice horse he will sell cheap. See ad.

Get your supper at the Hospital Stampede, October 10th and 11th.

Stampede post cards are selling fast. Gaetz-Cornett Co. have them.

Mr. and Mrs. W. E. Lord arrived home from the east Tuesday evening last.

Miss Murphy, of Halifax, is the guest of Mr. and Mrs. Nelson Murphy.

Hugh Clarke is building four or five cottages, to cost \$2,000 each, in Parkvale.

Some very classy handbags just received from New York at Gaetz-Cornett Co.

Mrs. Gibson, of Hamilton, Ont., is visiting her son, W. L. Gibson, and Mrs. Gibson.

H. J. Seymour left last week to continue his civil engineering course at Toronto University.

Madam Isabel Quigg is forming a vocal class for children under fifteen years of age. See ad.

Mr. and Mrs. Robert Irwin of Toronto, are visiting their daughter, Mrs. Dr. Plaxton.

Physical Geography, Agriculture, King Edward Music Reader, drawing, painting, and "Reveries" drawing book, No. 4, at John McVicar's bookstore.

Dr. Rouleau, of Calgary, died in that city Sunday last. Deceased gentleman was one of the old timers and was highly respected by all.

Miss Tom McLean, of Sydney Mines, Nova Scotia, arrived in town Monday morning to take a position on the teaching staff of the public school.

Harry Vallave returned from his holidays at the lake on Monday. He contends this is absolutely the best time of the year out there. His family returned last week.

A. R. Gibson, assistant principal of the Red Deer High School, returned from his visit to Scotland Monday morning. Mrs. Gibson will remain in Scotland for some months longer.

The person who lost some blankets near Sylvan Lake, a month or two ago, will be pleased to learn that they were found by E. M. Marchetti, of Ekville, and they will be left at News Office or can be secured at Ekville.

Miss Summery and her sister leave for Russell, their old home town in Ontario, in a few days. Miss Summery has been a splendid teacher on Red Deer's staff and she will be missed. She will also be missed in St. Luke's Church, where she was a most faithful worker.

In some of the Ontario towns and down in Cardston the electric light companies furnish users of their current a porch light free. This would be a good idea for the Western General Electric Co. to adopt.

It would not only be highly appreciated but would be a great beautifier of the town.

Next Sunday will be observed as Rally Day at the Methodist Church. At the morning service the Pastor, Mr. Pearson, will speak on the subject of the "Union Jack, Its Origin and Significance." An open session of the Sunday School will be held in the afternoon at 2:30, at which Stephen Bond, of Toronto, will speak.

Ralph Griffin, of The News job department, who is visiting his friends in England, can not be trusted alone. So sooner does he get out of our sight than he goes. He is riding a bicycle, and of course breaks his leg. We hope he does not take up with aviation before his return or we are afraid we will have to place his name in the obituary column.

Mr. and Mrs. H. Hanna, of Black Diamond, have been spending a short holiday with Mr. and Mrs. Butler in town, and have now gone to Pine Lake visiting relatives.

The organizer of the "Moose" reports that Red Deer will have a strong lodge. He is doing as well here as in any town of the province.

R. L. Gaetz has sold his splendid residence to R. H. Woodworth. Mr. Gaetz taking Mr. Woodworth's residence over in the deal.

The Baptist Young People's Society held a social in the basement of the church on Monday, Sept. 30. A very good crowd attended and enjoyed the programme provided by members of the Society, which consisted of solos, duets and recitations. A very fine lunch was partaken of, to which everybody did justice. It is to be hoped that the numbers at the young people's meetings on Monday nights will be greatly increased hereafter. All young people are invited to attend.

The members of the congregation of the Presbyterian Church, Red Deer, have elected the following additional elders: Messrs. Rev. N. D. Keith, Geo. K. Johnson, T. B. Miller, R. M. Young, Jas. L. Macdonald in connection with the ordination and induction of these elders will be held next Sunday morning.

The anniversary services of the above congregation will be held this year on Oct. 13th. The Rev. Wm. Shearer, Superintendent of Home Missions, will conduct these services. The anniversary supper, on Monday, the 14th, will be served in the hall at the rear of the church, as it will be completed by that date.

Paul Gilmore at the Lyric Friday night.

There will be genuine broncho busting at the Hospital Stampede.

H. H. Gaetz has improved sufficiently to leave the hospital.

Ice cream and candy for sale at the Hospital Stampede.

Six "drunk and disorderly" have hopped the town to \$8 this week.

Mrs. Dr. George is at home again, after a month's visit to the coast.

Mrs. Englestone, of Calgary, is visiting her sister, Mrs. Roy Cornett.

No meeting of S.O.E. tonight, Oct. 9th and 29th are the nights for October only.

Souvenir post cards of the Stampede at the Gaetz-Cornett Drug & Book Store.

E. Good arrived in town yesterday from Rocky Mountain House in five hours with his motor.

G. H. Jewell and wife, organizer of C.O.A.P.E., is in town on business connected with the order.

Odd-flores and Masons: P. K. Griffin can frame that chart and you will not be overcharged in price.

Gaetz-Cornett Co. are showing a very complete line of Prayer Books and Hymnals.

Do not forget the Empire Wall Papers Lead, and that P. E. Kent Co. are sole agents in Red Deer.

Paul Gilmore, superb in a remarkable play, "New York Times" Hear him at the Lyric on Friday night.

Clarie Martell was brought before Justice Wallace for riding his bicycle on the sidewalk. He was let off with a caution.

Charlie Smith, son of Geo. W. Smith, left last Wednesday for Montreal, where he will attend Melbourn College, taking up a course in agriculture.

London Cafe rooms were raided on Monday night by Chief Bell and Constable Reidy. A man and woman were arrested for keeping a disorderly house and remanded till Thursday.

H. J. Snell has received the medal to be presented to the Fire Brigade Football Club by E. Michener, M. P., for winning the Michener Cup three years in succession.

Mr. C. G. Campbell, Lady Hen Campbell, and their two sons, left for Kenilworth, Nova Scotia, Monday last, where they will reside in future.

We regret very much their removal from Red Deer.

The anniversary supper of Knox Presbyterian Church will be held in the new church hall on the evening of 14th October. Supper served from 6 to 8 p.m. Tickets, adults 50c; children under twelve 25c.

J. Abraham, of Valentine, Nebraska, arrived in Red Deer this week to settle. Mr. Abraham has a collection of stock following him which includes a number of Jersey cows and horses.

With one ear are coming two other settlers with their families. In answer to a query as to what brought him to Red Deer, he stated that he saw reports in the papers that Red Deer was a good dairying district, and so decided to locate here.

Norman Angel's famous book, "The Great Illusion," thrusts a new idea upon the minds of men, and discusses such topics as "Who saved Canada? Canadians," "Military conquests are financially futile," "The wealth of a nation can no longer be measured in terms of gold," and "The world is now a vast arena of battle more disputes than canons."

Jas. A. Youmans is taking orders for "The Great Illusion" at a price for poor people, and for the rich, too.

Thomas Lovatt, of Brackfield, Ont., was in Red Deer this week looking over the country with a view to settling with his family. Mr. Lovatt was much pleased with the appearance of the country about Red Deer. He said: "The only fault I can see is that the soil here seems almost too rich." He said he thought he had a good field of oats before he left home, they would run more than 30 bushels to the acre and were good quality, and he said "I have not seen a field in the west since I got here that looked any better. I find it is a difficult proposition shucking grain here. I can lift one of my own sheaves with one hand but here I find that I have to take hold of a sheaf with both hands to set it up. The grain is very heavy."

WANTED. Carpenter work wanted, by day or contract. Prices reasonable. Apply WEST HOTEL, Phone 264. Oct. 2, 1911.

FOR SALE. Horse, 5 years old, sound and gentle. Weight about 1100 lbs.; good driver. Will sell cheap, owner leaving. M. H. TRAUTMAN, Michener Hill, Red Deer. Oct. 2, 1911.

FOR SALE CHEAP. Library furniture, books, pictures, music cabinet, etc., etc. Apply H. T. THOMPSON, 37 Poplar St. Oct. 2, 1911.

WANTED. A farm, of about a quarter or a half section, within six miles of Red Deer, good buildings. Apply to Box 231, Red Deer. Sept. 23, 1911.

A VOCAL CLASS. Madame Isabel Quigg is forming a vocal class for children under 15. Meetings will commence on Monday, Oct. 9th, beginning on Saturday next, 10th October, at Madame Quigg's residence, Woodlea Crescent, Waskia. For terms apply at residence. Oct. 2.

High Grade Heating Stoves

Of course you want a heating stove to save fuel, to hold fire overnight and all that sort of thing, but the most important thing is that they heat the room properly and that they are built so they will last.

We don't have to sell our stoves on the claim of fuel saving alone. In the first place most people don't keep any record of the fuel burnt so that a far away catalogue house is pretty safe in making exaggerated claims in this direction.

They have your money, you can't be without a stove a month while you are sending it back to get another one, and if it wears out it is never the fault of "deliberate material or workmanship" which their

guarantee (?) covers. So when you get right down to the bottom, what are their claims of guarantees but a clever ruse to get your order?

We are right here where we have to make good what we claim; compare the sizes of our stoves, the weights, and you will find we give you fully as much for your money, to say nothing of seeing what you get, of delivering your stove the day you order it and saving you freight charges.

There is a good deal of difference between a guarantee covering 'defective workmanship' and our guarantee of perfect satisfaction. We are willing to leave the decision to your judgment, but we want you to see our stoves and make the comparison before you buy.

It Will Pay Both of Us

The Day Hardware Co.
WE STAND FOR PROGRESS

Home Ownership Must Pay.

Unless home ownership paid--and paid well--it would not be the common goal and hope of all thrifty people.

Perhaps you've considered that, for You, home ownership is merely an aspiration for some future time. And, very likely, you're wrong about it--and could start toward the goal in a week from now.

You'll be surprised to find how small a cash payment will put you into a home of your own--and a real good home--comfortable, cozy, convenient. And the balance of the purchase money can be paid like rent--and probably at less per month than you're paying today.

You ought to come and see us about this come.

The Smith Land Co.
